

WHAT YOU SHOULD KNOW ABOUT A FEDERAL MIGRATORY BIRD TAXIDERMY PERMIT

A Federal Migratory Bird Taxidermy Permit will authorize you to mount or otherwise perform taxidermy work on migratory birds, their parts, nests or eggs, belonging to someone else. The conditions of a Federal Taxidermy Permit are very specific. You should review 50 CFR parts 10, 13, 20 (subparts A-B, D-J) and 21.24 of the Code of Federal Regulations. These regulations can be found on our website at: <http://www.fws.gov/permits/ltr/ltr.shtml>. **You are responsible for reviewing and understanding these regulations before you request and accept a permit.** Below is a review of several sections pertinent to a Federal Migratory Bird Taxidermy Permit.

1. Can I mount migratory game birds with a Federal Taxidermy permit?

Yes. You can receive and mount migratory game birds taken and possessed in accordance with applicable Federal and State hunting regulations. All such birds must be properly tagged as required by 50 CFR 20.36. The tag may be removed during taxidermy operations but must be retained and reattached after mounting, and must remain attached until the specimen is delivered to the owner. (See 50 CFR 21.24(d)(2))

2. Can I mount and sell captive-reared migratory waterfowl?

Yes. You can sell properly marked, captive-reared migratory waterfowl that you have acquired from a propagator who has a Federal Migratory Bird Waterfowl Sale and Disposal permit. The propagator must give you a completed Notice of Transfer or Sale of Migratory Waterfowl form (Form 3-186) at the time of the transfer and you must maintain this form in your files. An additional copy of this Form 3-186 must accompany the mount when the bird is sold. **You may not sell any migratory bird that has been taken from the wild.** (See 50 CFR 21.24(c)(2))

3. Can I mount migratory birds other than waterfowl?

Yes. Protected nongame birds such as songbirds, hawks, and owls can be legally brought to a taxidermist by game wardens, Federal agents, or holders of appropriate State and Federal permits. Once mounted, these birds can be legally possessed only by public scientific and educational institutions or individuals or facilities that have a valid Special Purpose Possession Dead permit. Personal possession of nongame birds is prohibited. English sparrows, common starlings, and feral pigeons (rock doves) are not native to the United States and are not protected by Federal law. (See 50 CFR 21.11)

4. Will anyone inspect my records or taxidermy operation?

By accepting a Federal Taxidermy Permit, you authorize an agent of the Service to enter your premises at any reasonable hour to inspect the wildlife you hold, your books and records. (See 50 CFR 13.23)

5. What is required to transfer my permit to a new location?

Any address or location changes or other circumstances that affect your permit must be reported to your Regional Migratory Bird Permit Office in writing within 10 days so your permit can be amended. (See 50 CFR 13.23)

6. How do I renew my permit?

A renewal letter or form will be sent to you at least 60 days prior to the expiration of your permit. If you wish to renew your permit, you must return the completed renewal to your Regional Migratory Bird Permit Office at least 30 days prior to the expiration of your permit and include a copy of your current State license, if required. If we receive your renewal request at least 30 days prior to the expiration of your permit, your permit will remain valid beyond the expiration date until a decision on your renewal is made. If you allow your permit to expire before requesting renewal, you may be required to submit a new application. (See 50 CFR 13.22 and 13.11(c))
